Personal Website: <http://www.public.asu.edu/~operez7/>

Github: <https://github.com/omy335/>

Dedicated computer science student with strong leadership, passion for technology, a strong work ethic, and curiosity to learn more. Looking to gain experience about the industry in order to become a better programmer.

Experience

05/2016 - 08/2016

Research Intern

Arizona Commerce Authority

- During my internship at the Arizona Commerce Authority, I would verify the information of companies on their database keeping it up to date.
- This information would be used to find companies who would be interested into expanding into the state of Arizona.
- I had to rely on multiple sources in order to piece together information and verify that it was correct.

Education

05/2014 - present

Arizona State University, Computer Science

I have taken many courses that will help me be a more well-rounded candidate.

- Data Structures and Algorithms
- Introduction to Mobile Development (iOS Development)
- Introduction to Informatics (HTML, CSS, Javascript, SQL)
- Game Development I

Skills

C/C++

Java

Python

Swift

Javascript

Prolog

Scheme

Interests

I love both playing and watching sports. I am a big fan of soccer and football.

I am a member of the ASU Dragon boat team and it is something that I really enjoy being a part of.

I enjoy learning new languages, whether it is programming languages or other speaking languages. I am also a big fan of music. I love listening to it and also playing. I play the clarinet and the piano.
